Subject: Your data is ready

Australian Government
Geoscience Australia

Geophysical Archive Data Delivery System

This is an automated message to notify you that the requested geophysical data is ready to download. The download will be available for 48hrs.

Job reference number: 31e91930-5d42-11f0-944c-9de55a1cc946

ZIP file size: 1.4 MB

Area of interest:

Minimum Longitude	134.10394378916416
Maximum Longitude	134.60450182509325
Minimum Latitude	-12.937339048198297
Maximum Latitude	-12.472546977815625

Geophysical Method	magnetic
Dataset Type	grid

The data are from the following dataset:

- Magnetic Anomaly Map of Australia, Seventh Edition, 2020 - Enhanced Products Package - upward continued grid UC4km8kmRes (UC4km8kmRes)

You can download the output by clicking on the link below:
